

Side Mirrors Installation Instructions

CONTENTS OF KIT

4 Phillips Head Screws

2 Mirrors

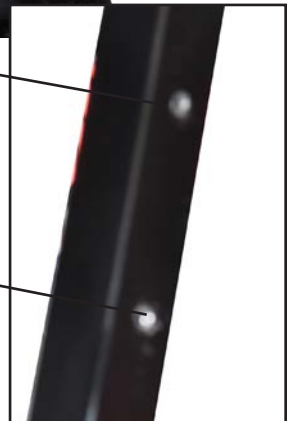

1. While seated in drivers seat, hold mirror to outer edge of windshield strut to determine mirror position. Using mounting end of mirror as guide, drill 2 small (1/8") pilot holes in outside edge windshield strut.

Drill Holes

Use as template

2. Remove Mounting Bracket and Mounting Bracket Assembly from Mirrors.

Retain Mounting Assembly. You will need it later.

Retain Mounting Assembly

3. Use screws to attach Mounting Bracket to struts in pilot holes drill in Step 1. 

Reassemble as shown

4. Attach Mirrors to Mounting Brackets using the Mounting Assemblies as shown.
